FEELING  
GOOD,  
IS BEING  
GOOD

DOCTORA ELIANA OCHOA

# FEELING GOOD, IS BEING GOOD,

The human being is a unit made up of body and mind; non-invasive and alternative therapies and procedures offer the possibility of improving and maintaining the health of the body as a whole. In a healthy and balanced way, thus achieving equal importance to the external image and internal health. Which, in turn, is reflected both inside and out. We integrate in a balanced way the traditional and modern treatment methods offered by medicine, with a universal approach to the individual within a scientific, harmonious and natural framework.

# ABOUT US

Dr. Eliana Ochoa is a specialist in aesthetic medicine, with a professional career as a surgeon from the University of Antioquia and extensive experience obtained in different high-quality aesthetic centers in the city.

Dr. Eliana Ochoa has been recognized for her excellent doctor-patient relationship, which allows her to understand the needs of each patient in a personalized way.

# FACIAL TENSION THREADS

## WHAT ARE THEY FOR?

**Lifting effect:** They cause tension in the tissues that become loose over the years.

**Skin redensification:** By stimulating fibroblasts and microcirculation, superficial wrinkles in the skin can be attenuated

**Firming action:** Threads are the first treatment option when it comes to combating sagging and drooping tissues, since 100% of patients experience a firming effect to a greater or lesser degree.

**Combined treatments:** Different thread designs can be combined with each other, as well as with other therapeutic options such as anti-aging treatment, hyaluronic acid, mesotherapy, etc.

Value: 616 USD

## TREATMENT ADVANTAGES

Minimally invasive

Minimum recovery time Maximum satisfaction

Natural result

Safety and effectiveness

## APPLICATION AREAS AND THEIR EFFECTS:

The number of threads varies according to the patient

ADVANTAGES/APPLICATION

# SERUM THERAPY

Homeopathic serum therapy consists of the application of medicines that help to meet some of the body's needs by facilitating the regulation of the body's biological functioning, that is, helping to restore and optimize its functions.

Although there are some that are used for a specific purpose such as facilitating a detoxification of the body or optimizing the immune system, most of them must be prescribed individually, based on the fact that each person is unique, with their own background, needs and priorities.

It is a treatment based on the application of intravenous serums according to the needs of each person. Therapeutic method to detoxify, revitalize, hydrate and nourish the body from within.

Types of serums:

- Detoxification
- Strengthening of the Immune System
- Vitamin C
- Sportsmen
- Anti-aging
- Anti-acne
- Revitalization
- Mood improvement

Session duration 30 to 40 minutes

Price: 65 USD

## RADIESSE PLUS

It is a dense collagen biostimulator that is used to recover lost volumes in specific areas of the face, mandibular profiling, repositioning of cheekbones and chin

Its effect lasts from 18 to 24 months

Value: 924 USD

It is a collagen biostimulator composed of Calcium

Hydroxyapatite

It improves sagging, gives greater firmness, helps define the facial contour

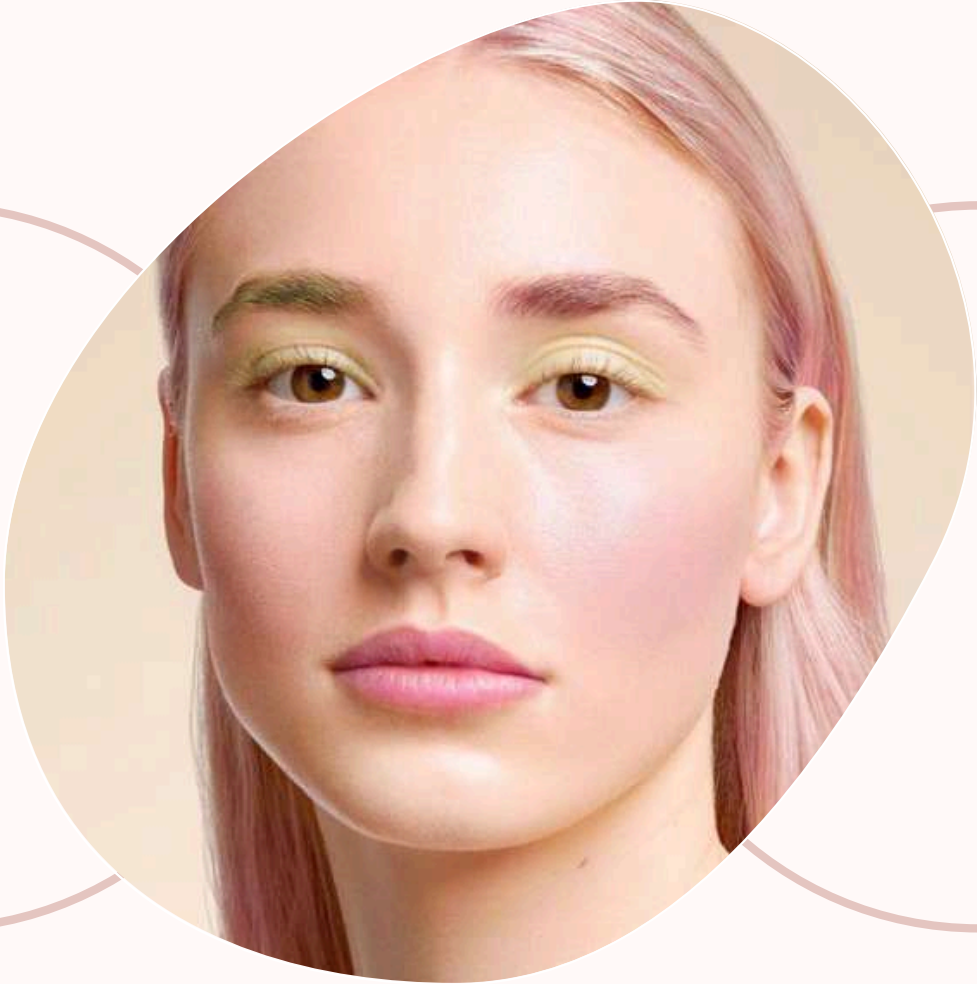

Its effect begins in 1 to 3 weeks and is more noticeable after 2 months

Its effect lasts from 18 to 24 months

Value: 539 usd

# SCULPTRA

It helps correct sagging skin and restore firmness to the face, neck, neckline, arms, abdomen, buttocks and thighs.

It improves skin irregularities.

It is a very long-lasting treatment (up to approximately 2 years).

It renews the skin at a cellular level by inducing the natural formation of new collagen.

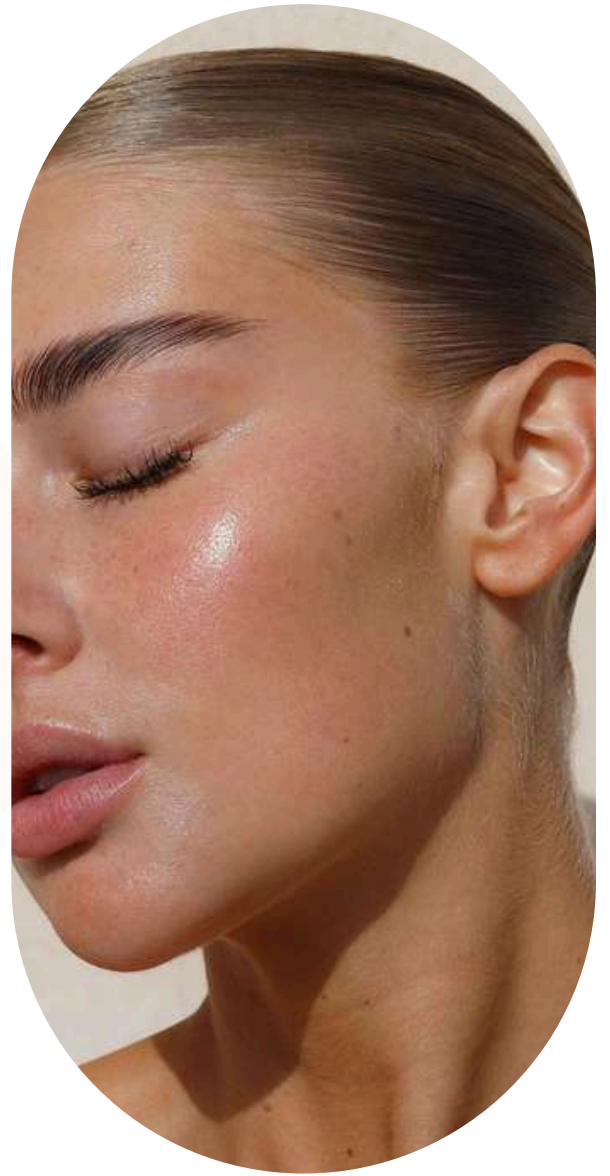

It is very effective in the treatment of cellulite and wrinkles on the body.

It gives the skin a more youthful and healthy appearance, and prevents the progression of signs of aging.

It is one of the most effective products, compared to other similar products on the market.

It is safe, biocompatible and reabsorbable.

Value: 641 USD

# HArmonyCa

Bio-stimulator of collagen + hyaluronic acid

Improves sagging

Restores volume

Generates lifting effect

It is safe, biocompatible and bioabsorbable

The result is immediate from the first application

Between 1 and 2 sessions are required, depending on the condition of the skin of each patient

Price: 924 USD

# LIP DESIGN

It is performed by lip contouring with hyaluronic acid: it is a process that allows the lip edge to be highlighted by injecting small amounts of hyaluronic acid.

It immediately improves the appearance of the face and defines the shape of the lips.

Hyaluronic acid is a natural substance produced by the body itself, which in addition to highlighting the lip edge, also helps to smooth wrinkles.

We use resorbable hyaluronic acid with Invima registration

Value: 308 USD

BEING WELL IS FEELING GOOD
